What I am interested in....

What I am good at.....

- **We are all different and the same**
- **We need people with different interests and skills**
- **Everyone is unique**
- **Be proud of who you are and what you are good at**
- **We need people to do jobs they are good at**
- **There is no one type of person who can do a certain job**
- **People may not be what you first think, it is not just what you look like**
- **Who you are comes from the inside**
- **Everyone has something to celebrate about themselves**
